

* La construcción de la J con las regletas es posible, sin embargo no es fiel a su trazado. Si se utiliza es importante explicitar que se realiza en dos trazos continuos, 1° para el asta curva y 2° para el techo o barra transversal.

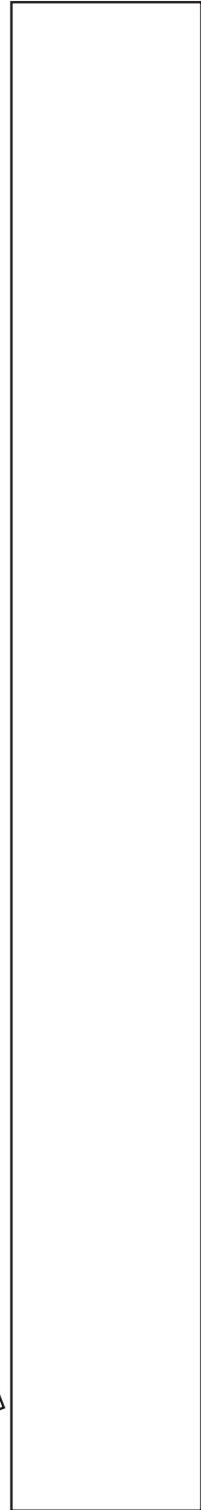

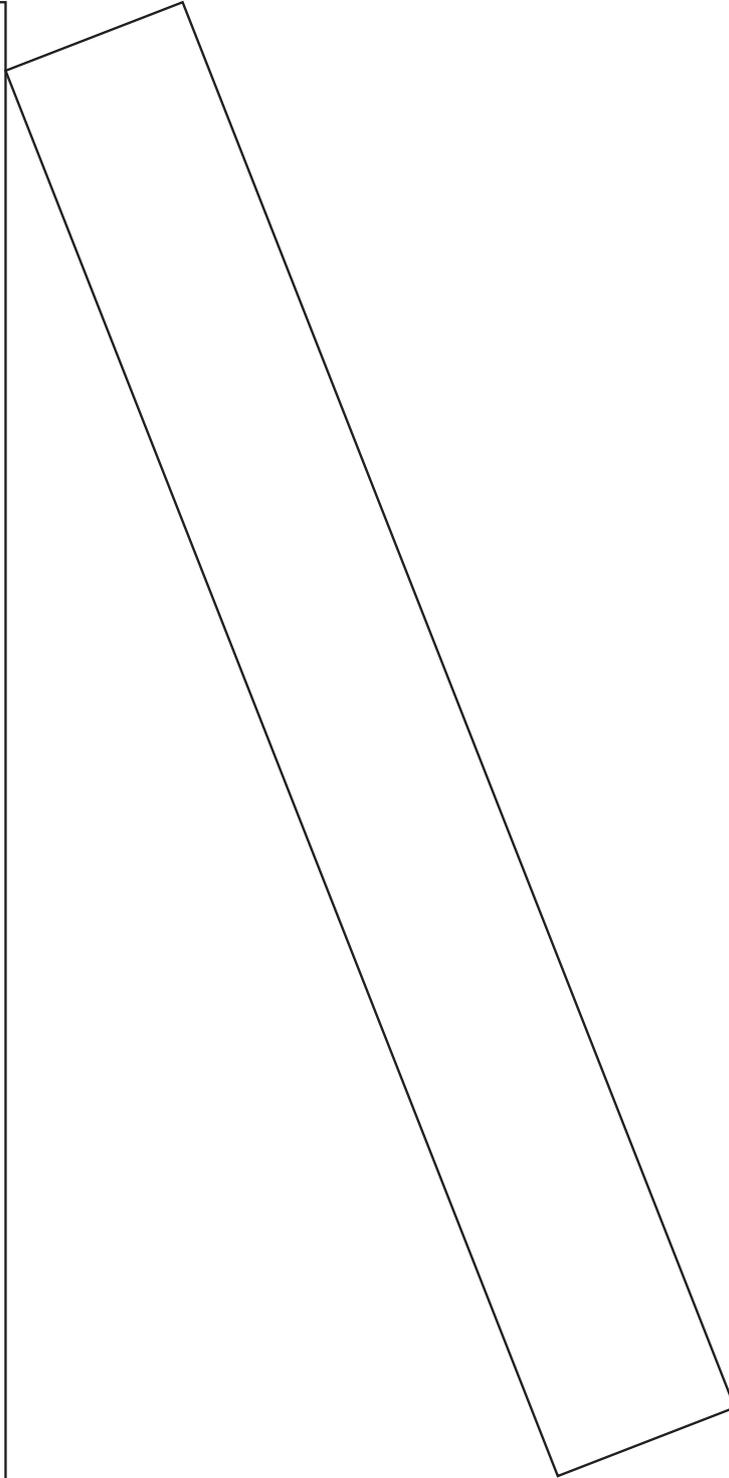

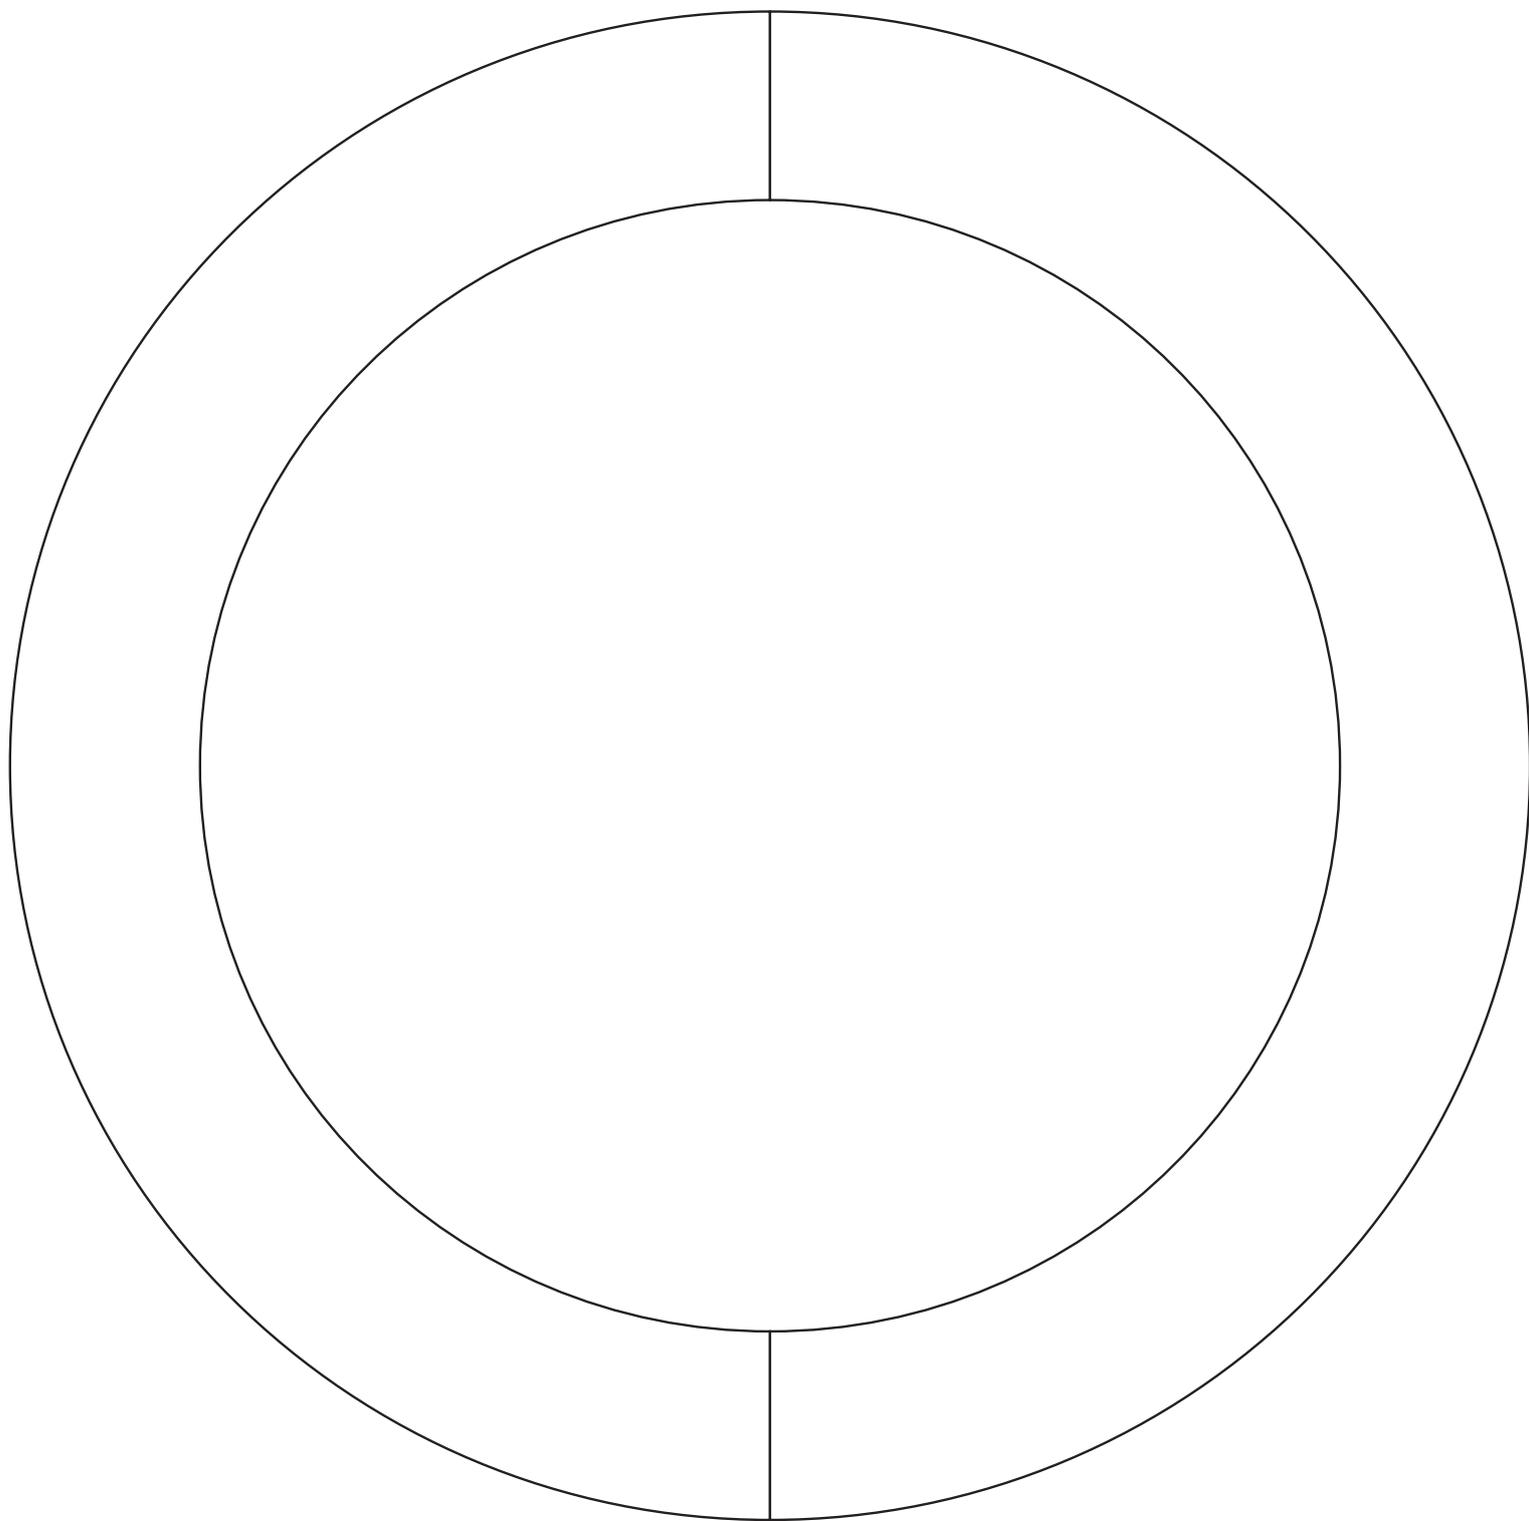

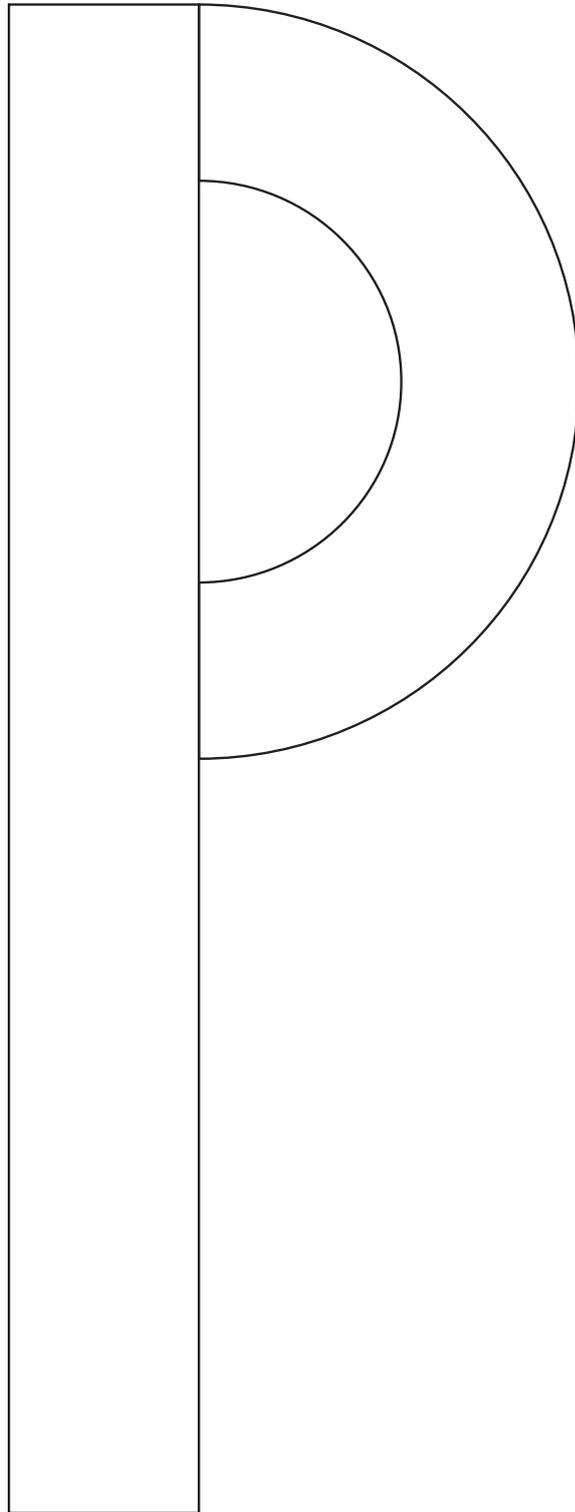

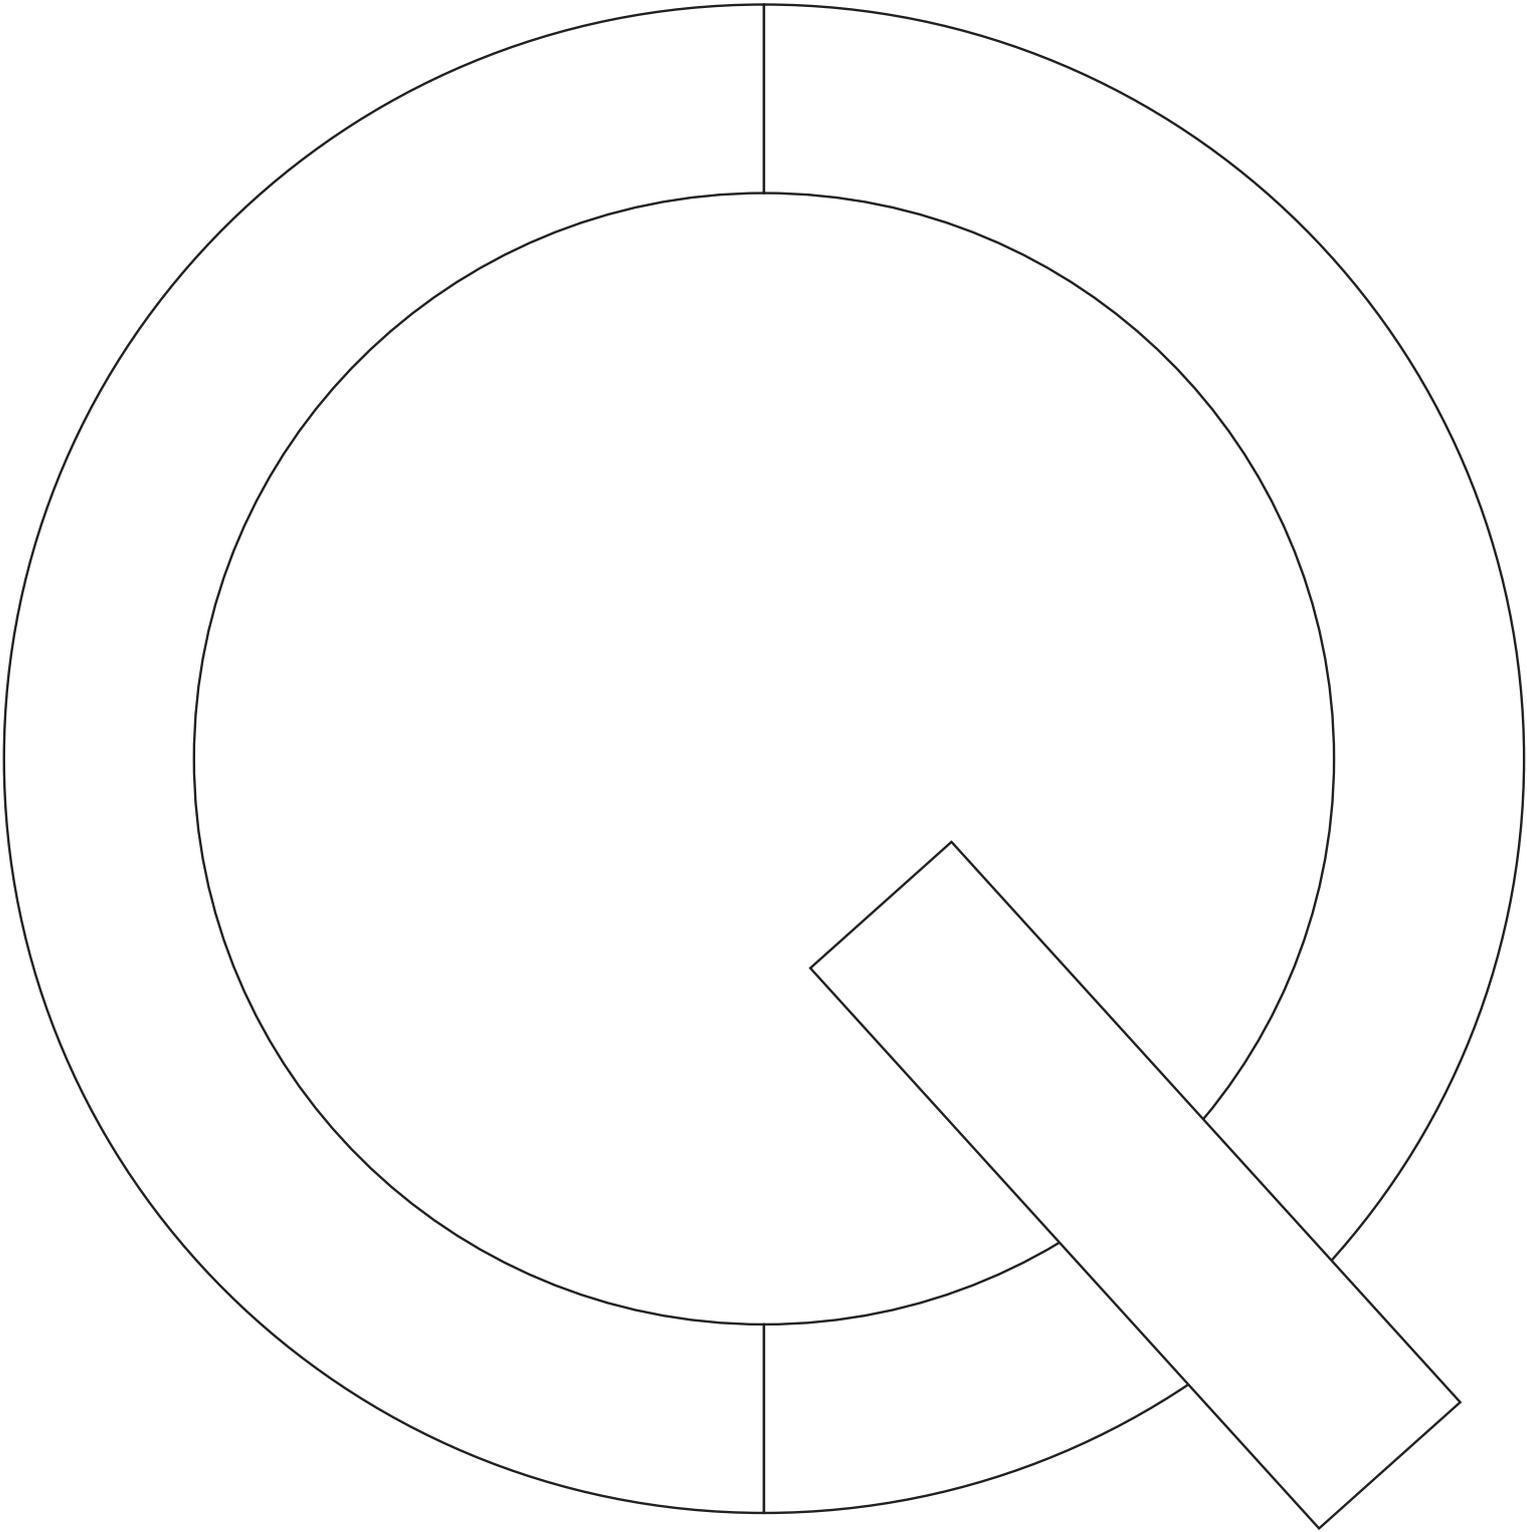

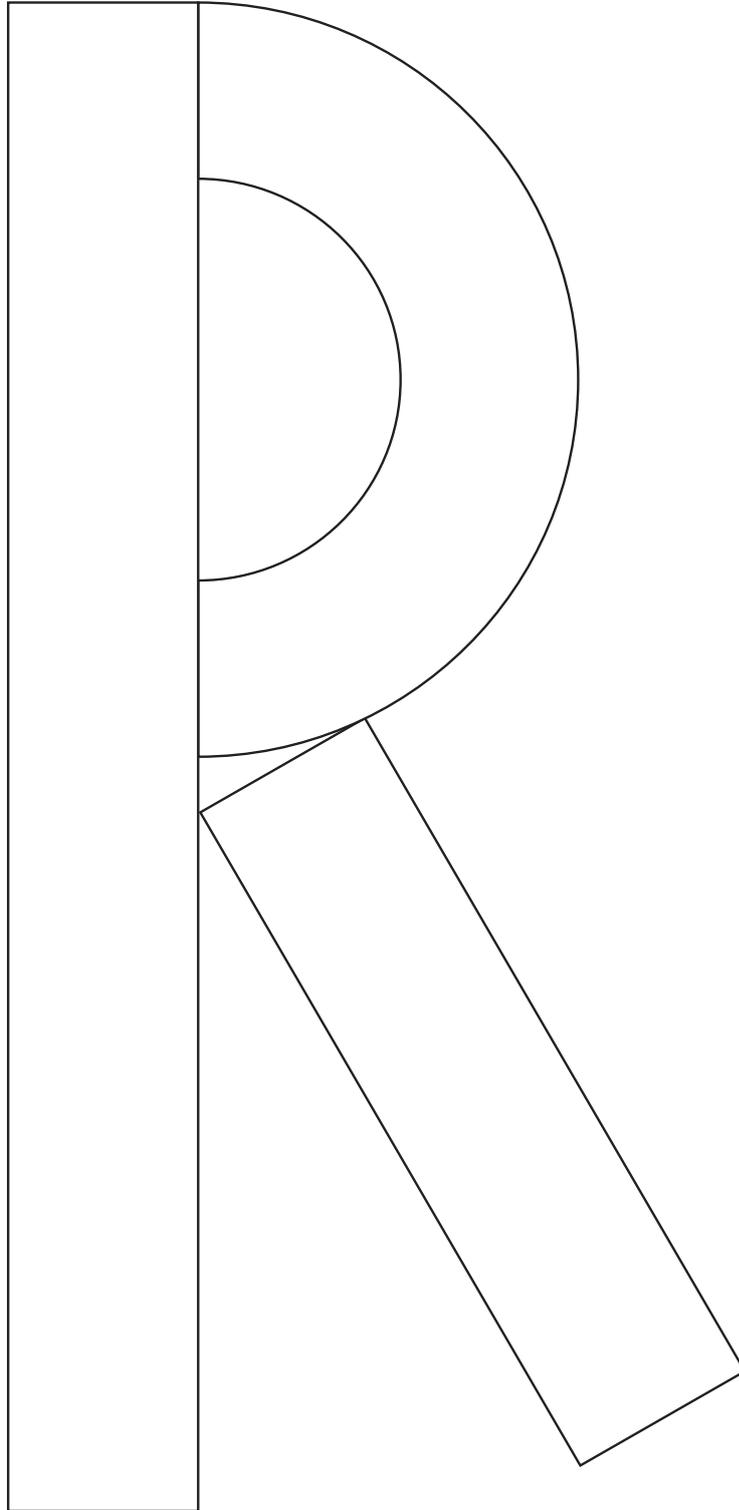

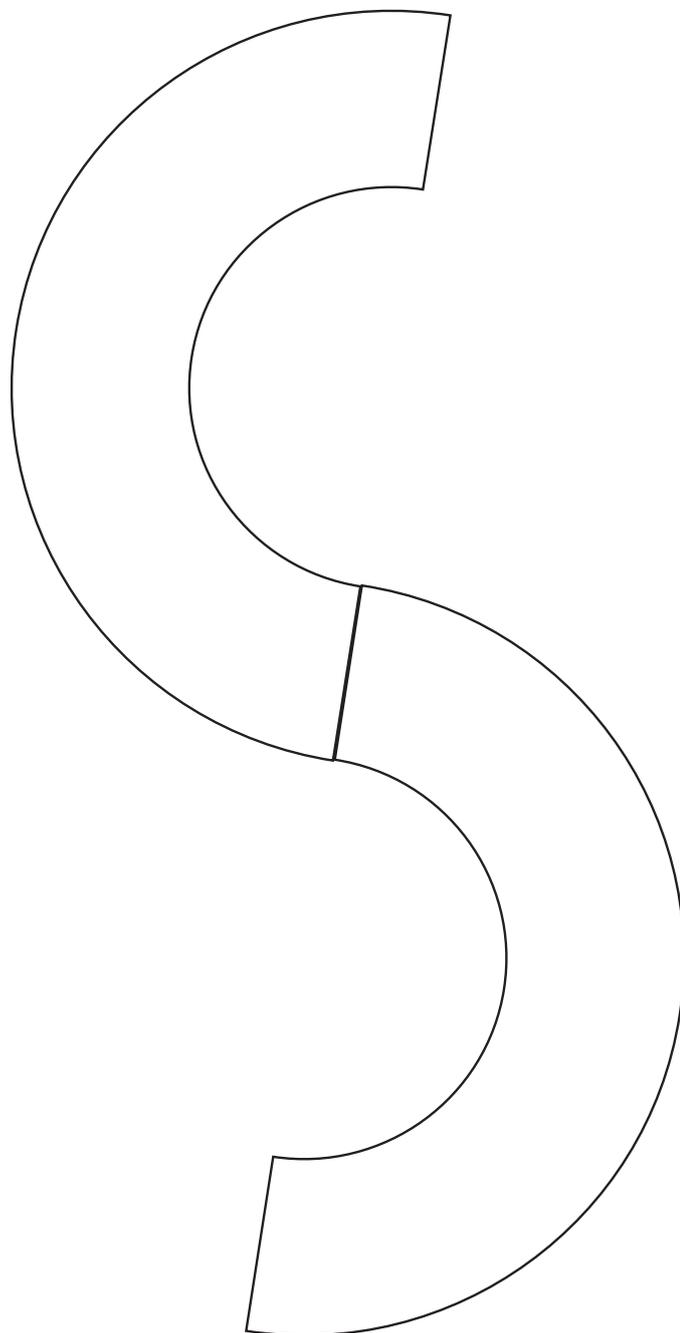

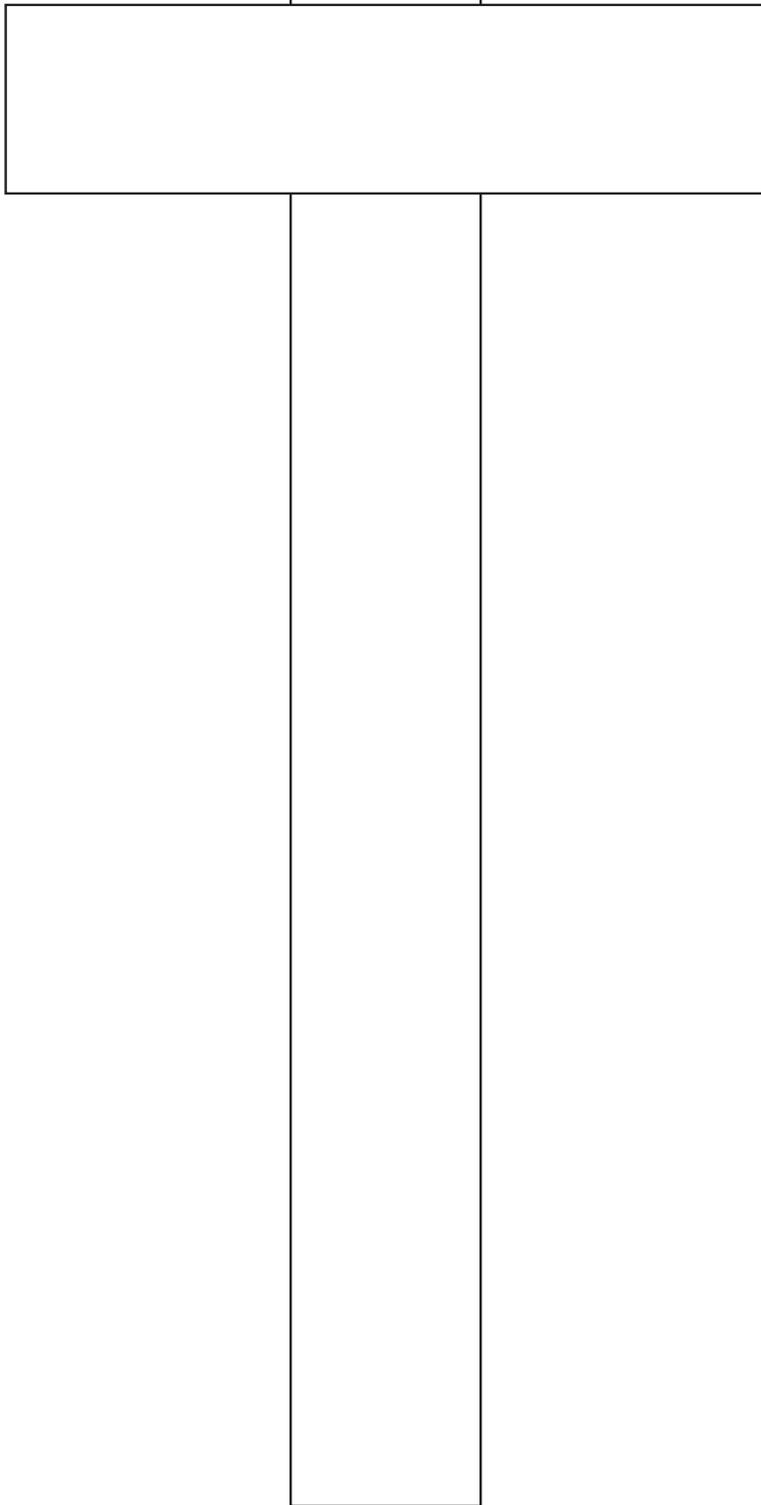

* La construcción de la U con las regletas es posible, sin embargo no es fiel a su trazado. Si se utiliza es importante explicitar que se realiza en un único trazo continuo.
